

Sanctified Mourning

*W*e have been blessed by God with the breath of life breathed in us at creation.

The image of God is not far off but near in our soul
As we pray daily
God is the all good whose mercies never fail us
Whose wonders are daily with us, evening, morn and noon
Let the healing power within you give you strength, courage, comfort and consolation.

We cannot wipe away the tears but we can make them holy
We hallow our mourning with the Kaddish, the pledge
to sanctify and raise up God's name.
